The Department of Health (DOH) created the Health Technology Assessment Council (HTAC) on 11 October 2019 to efficiently and effectively implement the Republic Act 11223 or the Universal Health Care Act. It is composed of a Core Committee composed of voting members, and seven (7) Subcommittees. Since its creation, the HTAC has accomplished its mandates as stipulated in Administrative Order 2021-0041 or the Implementing Guidelines on HTA which was signed by the Secretary of Health on 08 September 2020: (1) facilitate provision of financing and/or coverage recommendations on health technologies to be financed by DOH and Philhealth; (2) oversee and coordinate the HTA process within DOH and PhilHealth; and (3) review and assess existing DOH and PhilHealth benefit packages.

The HTAC has been informing government procurement decisions through its recommendations on COVID-19 technologies, urgent DOH National Program topics and other minor inclusion requests for drugs and vaccines already listed in the Philippine National Formulary. - Evaluate the compliance of the assessment teams, with the agreed methodological standards in conducting assessments; and
- Review and endorse the initial appraisal report to the HTA Core Committee for final discussion and recommendation.

Given the crucial role of the Council in evidence-based recommendations, the following are the qualifications of the HTAC members:

- Person of moral and intellectual integrity;
- A recognized specialist in their respective field of expertise;

- A recognized specialist in their respective field of expertise;
- With at least 3 years experience in evidence appraisal; and,
